MONTGOMERY COUNTY COVID-19 UPDATE

MONTGOMERY COUNTY – Montgomery County Public Health District, in conjunction with the Montgomery County Office of Homeland Security and Emergency Management, would like to continue to encourage residents to be vaccinated for COVID-19 or obtain a booster shot if eligible.

The FDA has authorized the use of the Pfizer vaccine in children ages 5 – 11 years old. We are awaiting word on the CDC's decision on approval which is expected to be announced later today. You can watch a live stream of the CDC meeting here:

<https://video.ibm.com/channel/VWBXKBR8af4>.

Meanwhile, the CDC has previously approved Moderna and Pfizer booster shots for those who are 65 years of age and older, immunocompromised individuals and those who work in high-risk industries. The CDC is also recommending boosters for those 18 years of age and older who received the Johnson & Johnson vaccine two or more months ago. For more information, click here: <https://www.cdc.gov/media/releases/2021/p1021-covid-booster.html>.

Do your part to slow the spread of COVID-19. The best way to protect yourself and those around you is to be vaccinated. You should also:

- ***Avoid groups of people.***
- ***Practice social distancing.***
- ***Wear a mask in public (over your nose and mouth) or with others who live outside your household. Never share a mask with others.***
- ***Wash your hands or use hand sanitizer frequently.***
- ***Disinfect surfaces in your car and around your home.***
