MONTGOMERY COUNTY COVID-19 UPDATE

MONTGOMERY COUNTY – Montgomery County Public Health District, in conjunction with the Montgomery County Office of Homeland Security and Emergency Management, would like to **strongly** encourage all eligible residents to be vaccinated to protect themselves and others from COVID-19 and *emerging variants* in our area. Everyone 12 years of age and older is eligible for a vaccine in Texas. Vaccines will protect you against severe illness, hospitalization and death due to COVID-19.

Hospitals, physicians' offices, and pharmacies have vaccines available. You can find a list of providers and additional information on the DSHS website here: <https://www.dshs.state.tx.us/coronavirus/immunize/vaccine-hubs.aspx>.

Since our July 21st report, we can confirm six additional deaths related to COVID-19.

- A woman in her 40s, from New Caney, died in the hospital. She had co-morbidities in addition to testing positive for COVID-19.
- A man in his 60s, from Magnolia, died in the hospital. He had co-morbidities in addition to testing positive for COVID-19.
- A man in his 60s, from Porter, died in the hospital. He had co-morbidities in addition to testing positive for COVID-19.
- A man in his 70s, from Spring, died in the hospital. He had co-morbidities in addition to testing positive for COVID-19.v
- A woman in her 80s, from Splendora, died in the hospital. She had co-morbidities in addition to testing positive for COVID-19.
- A woman in her 90s, from The Woodlands, died in the hospital. She had co-morbidities in addition to testing positive for COVID-19.

We can also confirm:

- TOTAL cases of COVID-19 increased by 1,642 to 58,659 since last Wednesday's (7/21) report.
 - There is no increase in confirmed reinfections this week; the total remains at 23. TX DSHS defines reinfection as a case with two positive PCR tests at least 90 days apart, with no consecutive tests in between. You can find more information on reinfection here: <https://www.dshs.state.tx.us/coronavirus/docs/DSHS-COVID19ReinfectionGuidance.pdf>.
- ACTIVE cases of COVID-19 increased by 1,223 to 2,435 since last Wednesday's (7/21) report. Today, we accounted for 134 additional inactive cases who we have been unable to contact for 30 days or more.
- 137 county residents are known, as a result of contact investigations, to be in the hospital. Contact investigations have not been initiated on all reported cases.
- 30,373 people have clinically recovered.

The Testing Positivity Rate for Montgomery County has increased to 12%, up from 7% last week.

Do your part to slow the spread of COVID-19. The best way to protect yourself and those around you is to be vaccinated. You should also:

- ***Avoid groups of people.***
- ***Practice social distancing.***
- ***Wear a mask in public (over your nose and mouth) or with others who live outside your household. Never share a mask with others.***
- ***Wash your hands or use hand sanitizer frequently.***
- ***Disinfect surfaces in your car and around your home.***
