MONTGOMERY COUNTY COVID-19 UPDATE

MONTGOMERY COUNTY – Montgomery County Public Health District, in conjunction with the Montgomery County Office of Homeland Security and Emergency Management, can confirm the number of children under 12 years of age who have tested positive for COVID-19 remains at a record level.

We strongly encourage you to be vaccinated for COVID-19 if you have not done so already. Even if you contract COVID-19 after vaccination, the chances of severe illness, hospitalization and death are extremely low.

Only 51 percent of eligible Montgomery County residents are vaccinated. Need to find a vaccine? **Drive-thru vaccines are available.** See below for more information, or click here for additional vaccine sites: <https://www.vaccines.gov/>.

Today, we can confirm:

- TOTAL cases of COVID-19 increased by 840 to 68,664 since Friday's (8/20) report.
 - Of the 840 new cases, 80 are under the age of 12 and not eligible for vaccination.
- ACTIVE cases of COVID-19 increased by 126 to 9,199 since Friday's (8/20) report.
 - Today, we added 580 additional inactive cases who we have been unable to contact for 30 days or more.
- 268 county residents are known, as a result of contact investigations, to be in the hospital. Contact investigations have not been initiated on all reported cases.
- 31,608 people have clinically recovered.

The Testing Positivity Rate for Montgomery County remains at 22%, down from 23% last Wednesday.

Do your part to slow the spread of COVID-19. The best way to protect yourself and those around you is to be vaccinated. You should also:

- ***Avoid groups of people.***
- ***Practice social distancing.***

- *Wear a mask in public (over your nose and mouth) or with others who live outside your household. Never share a mask with others.*
- *Wash your hands or use hand sanitizer frequently.*
- *Disinfect surfaces in your car and around your home.*
