Moving forward, we will merge our efforts at reporting results with the Montgomery County Office of Emergency Management. Instead of releasing case-by-case updates, we will link a dashboard for the cases here: <https://coronavirus-response-moco.hub.arcgis.com/>. With a large increase in the availability of testing, this will be a more accurate and concise way of displaying the information. The graphics below will still be provided here: <https://mcphd-tx.org/coronavirus-covid-19/confirmed-cases/>.
