

Montgomery County MRC Texting Notifications

In an effort to expand our outreach and provide more accurate and updated information for volunteers, The Montgomery County Medical Reserve Corps will now utilize an online texting service to send out notifications to volunteers who opt in.

This service will be used to serve the following functions:

- Notify volunteers that the monthly newsletter has been emailed.
- Remind volunteers of upcoming shifts, events, or meetings that they registered for.

This service will **NOT** replace general communications. The best way to get into contact with the MRC coordinator is through email (cculver@mchd-tx.org) or by phone (936-230-2875).

This service works to help remind volunteers of upcoming events they are registered for and provide notice of news sent out via email.

To opt into this service, please fill out the following information:

Last Name	First Name
Mobile Phone Carrier	Mobile Phone Number

By signing this document, I understand that this is a supplemental service to help provide additional notifications for events and news. This is not a replacement for day-to-day communications, and I have the ability to opt out at any time by texting "OPT OUT" to the provider.
